HIV 1	5/30/2006	Negative
HIV 2	5/30/2006	Negative
HTLV I and II		

YOU HAVE A STORAGE PROBLEM.

Sooner or later, every growing IVF Center will face this problem. We've seen it coming for years. So we've been refining a shipping and storage protocol to answer this rapidly growing need. It's a turnkey solution that removes the risk and worry from your

office, and yet, assures that your patient's specimens are readily available when you need them. And best of all it costs your clinic nothing. Call us today to assure your center is prepared to handle the risk of potentially infectious tissue storage.
