

HOW LONG HAVE YOU HAD ESP?

(EMBRYO STORAGE PROBLEMS)

When you started your IVF Center, you probably didn't know what ESP was, let alone that one day you would have it. But as you became more successful, you started to see it coming. In the early days, it was easy to deny. Now, as a successful IVF clinic, you cannot ignore the signs...you have Embryo Storage Problems (ESP). Thankfully, there is hope. There is ReproTech, Ltd.

ReproTech is a state-of-the-art facility that specializes in efficient storage and administration of embryos. With one call, you can arrange to have your clients' embryos safely shipped to us for on-going

storage. Once embryos are successfully transferred to ReproTech, we maintain a continuous, professional relationship with your patients, thereby relieving you of the administrative responsibilities related to embryo storage. We also eliminate your worries over complying with current regulations and standards for the use and disposition of stored embryos as well as donated embryos.

You don't need supernatural power to solve your storage challenge. Just call **1-888-489-8944** or visit us at www.reprot.com to discover how we can relieve your storage headaches.
